ULTRASOUND TECHNICIAN DIPLOMA PROGRAM

If you are detail-oriented, have great hand-eye coordination and like being with people, sonography may be the perfect career for you. The Ultrasound Technician Program at Central Coast College (CCC) is a great place to begin and you can complete our full-time program in less than two years. We will prepare you to be part of a profession with high potential and growth. CCC students can enter the job market successfully with a program involving classroom theory, lab procedures and externship.

Total Weeks in Program:	84 Weeks for Morning/Afternoon classes 99 Weeks for Evening classes
Semester Credit Hours:	86.66 Alternate Financial Aid Credits: 58
Total Clock Hours:	2,180 (classroom : 1,220 / clinical externship: 960)

Career Highlights & Opportunity

As an Ultrasound Technician, you will use special equipment to direct high frequency sound waves into a patient's body. The technical term for ultrasound is "sonography." Ultrasound is painless and harmless with no radiation. Best of all, studies have not revealed any adverse effects. Sonographers can specialize in one or more areas including Vascular Technology, Obstetric and Gynecologic, Echocardiography, breast and abdominal.

The U.S. Bureau of Labor Statistics projects a 12% growth in job opportunities until 2029 – much faster than average. Sonography has become an increasingly attractive alternative to radiological procedures. In 2019, Sonographers held 131,700 jobs with most diagnostic imaging workers employed in hospitals with the rest working in physicians' offices or medical and diagnostic laboratories.

Accreditation & Approval

Accreditation and approval guarantees students, faculty and the public that the programs at CCC meet objective and rigorous third-party standards of educational practices. Our institution is also accredited by ACCET (Accrediting Council for Continuing Education and Training) and approved by BPPE (Bureau for Private Postsecondary Education).

Ultrasound Technician Program Courses Include:

- Medical Terminology
- Anatomy, Physiology & Physics
- Ultrasound Laboratory
- Abdomen, OBGYN & Vascular
- Peripheral Vascular Sonography
- Clinical Externship
