If you want a career that puts you in a surgical setting providing care to patients and you are detail-oriented, Surgical Technology could be a great choice for you.

The Surgical Technology Associate of Applied Science (AAS) program is a program dedicated to becoming an integral part of a medical team.

The Surgical Technology Associate of Applied Science (AAS) program at Central Coast College (CCC) is dedicated to equipping students with the theoretical knowledge and technical skills essential for a career as a professional surgical technologist. CCC will prepare you to enter your surgical technology career with a program involving classroom theory, lab procedures, externship and online learning for general education requirements.

Total Program Length: 80 weeks

Semester Credit Hours: 79 Hours

Total Clock Hours:: 1,670 (classroom: 900 / lab: 210 / clinical externship: 560)

Program Overview

The Surgical Technology AAS program is designed to ensure students become proficient in creating and maintaining a safe perioperative environment, demonstrating thorough knowledge of aseptic techniques, and effectively using surgical instruments and equipment. The program emphasizes the development of professional attitudes, ethical behavior, and effective communication within the healthcare team. Upon completion, students will be prepared to provide comprehensive care to patients and surgical teams, integrating knowledge across cognitive, affective, and psychomotor domains.

Job Outlook

According to the Bureau of Labor Statistics, overall employment of surgical assistants and technologists is projected to grow 6% from 2023 to 2033, faster than the average for all occupations.
